Catalina 28 markII

A stunning yacht from any angle, the Catalina 28 markII

The Catalina 28markII incorporates the best modern features with Catalina's classic styling. This careful blend of innovation and traditional values has insured the Catalina 28mkII will pass the test of time.

Notable features of the deck are the walk-through transom, stern boarding platform, and easy access forward on the wide unobstructed weather decks.

The ergonomically correct cockpit seats and coamings reflect an understanding of the importance of the cockpit to the comfort of the crew. Roomy, functional cockpits are a Catalina hallmark. The sail controls, including the single line reefing system, all lead to the security of the cockpit. The rig is masthead with double spreaders, fore and aft lower shrouds permitting powerful headsails and narrow sheeting angles for good windward performance.

The interior is spacious and comfortable. The galley and head are aft for convenience to

the cockpit. Special attention has been given to the traffic patterns, ventilation, storage and privacy.

The warm and inviting main cabin is a masterful blend of rich, contemporary fabrics and the timeless beauty of teak and ash traditional finishes. Natural light and ventilation abound through numerous opening ports and hatches.

The amazing galley is a marvel of space planning and convenience. Separate lockers for utensils, pans and dry food are all well located. Countertops are durable, easy to clean one piece molded surfaces. A gimballed, stainless steel stove converts to counter space with the handy flip up cover.

The headroom is generous and all berths are extra long, uncommon but welcome features in a twenty-eight footer.

To encourage you to create a Catalina 28 especially for your kind of sailing, an extensive list of equipment including a choice of wing or fin keel models is available.

kl is built with the quality and attention to a sailors' sense of detail that make her a sailing pleasure that you'll look forward to enjoying on any waters.
