CATALINA

The Catalina 42 has earned an international reputation as the leader in her class. By leading in design, cruising performance, and comfort, the Catalina 42 has become the choice of sailors worldwide.

The latest Catalina 42markII is the logical result of America's most experienced sailboat builder continuing to listen carefully to the needs and desires of experienced sailors.

All sailors want speed under sail, easy motion and sure, predictable handling characteristics.

For sure tracking, a long horizontal skeg runs aft between the fin or wing keel and the rudder. The elliptical rudder is large and balanced, ensuring control in all conditions, whether under sail or power.

The hull of the 42 mkll is high volume, and easily driven, with a fine entry, firm midship section, and smooth run aft terminating in a modified reverse transom. The step down boarding platform has a fold-down swim ladder and two lockers that also serve as seats.

Impressive speed under power is realized by the dependable four cylinder diesel engine. Complete access to all power plant maintenance areas is quick and convenient.

The Catalina 42 mkll deck was designed with short-handed sailing in mind. All the halyards, the ball bearing mainsheet and the single line main reefing controls are led to the cockpit and placed to be operated from under the available hard fiberglass dodger when necessary.

The wide weather decks and inboard shroud base make passage forward easy and secure. Mainsheet furling is available in both mast and boom configurations. Generous storage and tankage allow for extended cruising possibilities. Two heads, each with their own holding tank, allow you to spend more time offshore. Cruising options include an additional fuel tank. and a diesel generator and fiberglass dodger.

In continuous production since 1988, the 42 has proved the strength of her design and construction to sailors worldwide. Besides investing in one of the best buys in a new boat, the past history has shown the Catalina 42 has consistently held high resale value when it comes time for your next Catalina.

There are four available interior plans for the Catalina 42 mkll, each planned to suit your personal sailing lifestyle.

Interior arrangements offer your choice of two or three staterooms. When selecting a two or three stateroom model, our owners can then further specify either of two different owners' compartment/head layouts. Both of these compartments are forward of the mast, and let you decide if your prefer a traditional double pullman berth, with head forward, or a centerline berth with pedestal double berth and head aft, with private entrance.

All cabin arrangements feature varnished teak jointery and ash side paneling on the hull. Excellent light and ventilation are provided naturally from aluminum framed opening hatches and ports. Numerous recessed halogen lights offer an inviting ambiance.

Recognized the world over as the number one production sailboat over 40 feet, the Catalina 42 is the boat dreams are charted on. We invite you to join hundreds of Catalina 42 owners that are making their dreams a reality. See your local dealer for a test sail and find out why.

BUILDERS OF CATALINA AND MORGAN SAILING YACHTS Catalina Yachts, 21200 Victory Blvd., Woodland Hills, CA 91367 (818)884-7700 • FAX (818)884-3810 • E-mail: catalina@catalinayachts.com • www.catalinayachts.com

Both of the two cabin interiors feature wrap-around seating framing the custom teak table, that lowers to form an additional berth.

The navigation desk has enclosures for electronics and entertainment center. Five overhead hatches are complemented by adjustable halogen lighting throughout.

Two cabin amenities include additional storage aft of the galley and overhead cup and glass storage. Easy access bulk dry food storage is built into the molded galley countertop.

Available Ultraleather™ upholstery offers all the benefits of leather, without the disadvantages. Louvered teak cabinetry in the salon offers functional, out of sight storage possibilities.

The aft cabin has a roomy double berth with hanging locker and dresser with bureau.

The two cabin salon is a spacious, inviting place to spend time with family and friends after a rewarding day of sailing.

The two cabin galley has 10 cabinets, plus dry storage food storage locker. Top and side loading icebox provides accessible food and beverage storage.

The centerline owners' berth forward features a pedestal berth, flanked by settees port and starboard. Storage is plentiful with two hanging lockers and five drawers under the bed. There is private access to the forward head from the forward cabin.

The pullman owners' berth forward features side by side hanging locker and bureau with a seat in between. Additional storage is provided under and on shelves above the 6'5" double berth. The head is forward with enclosed shower compartment.

CENTERLINE FORWARD BERTH

PULLMAN FORWARD BERTH

Three

Each aft cabin has a roomy double berth with seat and hanging locker

The three cabin interiors invite friends and crew to gather around a table that seats everyone comfortably. The gourmet side galley with molded counter surface includes the convenience of a combined top loading icebox/refrigerator, with an additional front loading door, finished in teak veneer. Eight drawers and three cabinets, along with counter top storage put all cooking accessories close at hand.

The navigation station is located just aft of the salon table. This large work surface features a desk and large cabinet with sliding door.

Additional storage is under the massive wrap-around seating and the detached settee.

With a second head aft and navigation station to port, both are convenient to the cockpit.

At the center of the galley is the stove, flanked by the sink, refrigerator and microwave, all easily within arm's reach
